## ABOUT ME

As a recent graduate from a comprehensive MERN Stack course, I bring a fresh perspective and enthusiasm to the field of web development. With a solid foundation in MongoDB, Express.js, React.js, Node.js, HTML and CSS am equipped to tackle diverse challenges and contribute effectively to projects. Eager to apply my newfound skills and continue learning in a dynamic environment, I am committed to delivering high-quality solutions and driving innovation as a MERN Stack Developer.

## PROJECTS

### ■ Movie Review & Rating Website (MERN)

I've created a dynamic Movie Review & Rating Website using the MERN stack, allowing users to discover, review, and rate their favorite films. With a sleek and intuitive interface, users can explore a vast database of movies, share their opinions, and engage with a vibrant community of fellow movie enthusiasts.

### ■ Restaurant Reservation Application (MERN)

I've developed a Restaurant Reservation Application using the MERN stack, enabling users to easily book tables at their favorite restaurants. The application allows users to browse available restaurants, select their desired date and time, and make reservations seamlessly. With intuitive user interfaces built using React.js and a robust back-end powered by MongoDB and Node.js, the application provides a smooth and efficient reservation experience.

### ■ TODO Application (REACT JS)

Developed a simple To-Do application using React to manage tasks with features such as adding, editing, and deleting items, and marking tasks as completed.

## INTERESTS

- Coding
- Football
- Exploring Distant Lands
- Capturing Moments

## EDUCATION

2023 - 2024 | ENTRI ELEVATE  
**FULL STACK DEVELOPMENT**  
**ILLINOIS TECH CERTIFIED**

MongoDB, React JS, Node JS, Express JS,  
HTML, CSS, Bootstrap, GIT

2018 - 2021 | Madurai Kamaraj  
University

**BSC HOTEL MANAGEMENT**

Comprehensive training in hospitality  
operations, customer service, and business  
management.
